

PROFESSIONAL EXPERIENCE

Video Editor

Defence Neeti Academy

05/2023 – 12/2023 | Ghaziabad, India

- Enhanced video content by colour grading, correcting footage, and applying creative editing techniques to achieve desired aesthetics.
- Edited and assembled raw footage, incorporating special effects and transitions to create compelling video narratives for various platforms. English Hindi
- Participated in weekly team meetings, presenting edited videos and receiving constructive feedback.
- Managed multiple video editing projects simultaneously, adhering to tight deadlines without compromising on quality.

Graphic Designer / Video Editor

UPSGS

10/2020 – 12/2020 | Ayodhya, India

Project Manager

Orbit

03/2024 – 06/2025 | South Dakota, USA

- 1- Led end-to-end task management and workflow alignment across cross-functional teams in a high pressure, fast-paced startup environment.
 - 2- Strategically assigned tasks to team members based on skillsets and bandwidth, ensuring optimal time management and project delivery.
 - 3- Conducted regular meetings with clients and early users to gather feedback, align expectations, and improve user experience before launch.
 - 4- Managed multiple concurrent tasks while maintaining agile timelines and adapting to shifting priorities.
 - 5- Acted as a communication bridge between product, design, and engineering teams to keep all stakeholders aligned on project milestones.
 - 6- Built and maintained detailed project timelines, trackers, and documentation to support transparency and accountability.
- Played a key role in Orbit's early-stage growth by ensuring task execution aligned with company vision and launch goals.

EDUCATION

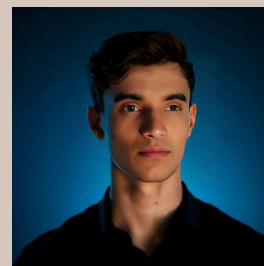

Mathematics

St. Xavier's School

04/2023 – 05/2024

Arronstone

 Delhi

SKILLS

AI Image Generation

AI Video Generation

AI Voice Generation

AI-Based Website Development

Advanced Website Development with critical editing

AI Chatbot Development

AI Automation Software Creation

AI-Driven 3D Modeling

AI Driven Management System

Figma

Framer

Microsoft Suite

PowerPoint Expert

AI Lab College Internship

HP Inc.

04/2025 – 06/2025 | Noida, India

AI Internship Program

CSIT

06/2024 – 06/2024 | Singapore

AIIP offers a unique opportunity for young talents to gain hands-on experience in the dynamic field of AI. Successful applicants will work alongside AISG's AI Engineers and AI Apprentices on real-world projects that span across diverse AI domains, including Computer Vision, Natural Language Processing, and Generative AI (Large Language Model).

Summer Internship Program

Deepsense AI

07/2025 – 09/2025 | Poland

- Collaborated with **top-tier AI and ML engineers** at deepsense.ai, gaining practical experience in building and deploying AI solutions for diverse industries.
- Designed and implemented **machine learning pipelines** for real-world applications, focusing on predictive modeling, automation, and business intelligence.
- Enhanced **customer relationship management (CRM)** systems through AI-driven insights, improving client engagement and solution personalization.
- Contributed to the development of **applied AI prototypes** that demonstrated measurable efficiency gains for enterprise clients.
- Strengthened expertise in **end-to-end AI project lifecycle**, from data preprocessing and model training to deployment and optimization.

Backend Development Internship

Stripe

01/2025 – 04/2025 | United Kingdom

- Assisted in building and optimizing **backend APIs and microservices** for financial transaction systems at **Stripe**, ensuring scalability and security.
- Worked with **Node.js, Python, and PostgreSQL** to design efficient database schemas and improve query performance.
- Contributed to integrating **payment gateway modules** used by thousands of global businesses.
- Collaborated with senior engineers on **code reviews, bug fixes, and feature enhancements**, gaining exposure to **enterprise-level backend architecture**.

ACCOMPLISHMENTS AND AWARDS

4th Place Winner | New York, USA

The Barbarian Group

04/2025

- Secured **4th place** in an international graphic design competition organized by **The Barbarian Group**, a leading creative agency.
- Designed a complete **advertisement campaign** for **Infinite (New York-based company)**, showcasing creativity, branding skills, and innovative visual storytelling.
- Recognized among top global participants for combining **design, marketing strategy, and brand identity** into a compelling visual solution.

Defence Neeti Academy

Successfully edited videos for Shoorveer Defence Academy for a period of 6 months.

Orbit

Perfectly managed project to bring the most efficient result for an social media startup company (Orbit), Effectively managed multiple programs from core website development to bringing clients, From communicating with clients from 11 different countries to delivering perfect presentation and other things like Graphic designing, Video editing, Using knowledge of AI to support multiple activities

Built a GIF-based AI video generation system that converts scripts into videos using AI-generated visuals and voices

Created a full automation pipeline using Zapier to generate and publish short-form AI videos across social platforms

Mastered multiple AI tools to generate content in image, video, voice, 3D, and text formats

- Strengthened knowledge in **REST APIs, cloud deployment (AWS), and CI/CD pipelines.**

COURSES

Generative Design & AI

UE

01/2024 – 10/2024 | Germany

- Completed an intensive **1,000+ hour certification** in **Generative AI, Large Language Models, and AI-driven automation systems.**
- Gained hands-on experience in **Neural Networks, Diffusion Models, NLP, and Computer Vision applications.**
- Developed and deployed multiple **AI prototypes**, including text-to-image, voice synthesis, and autonomous agents.
- Strengthened expertise in **AI ethics, scalability, and enterprise deployment strategies.**

ORGANISATIONS

UPDESCO

Graphics Designer

10/2020 – 12/2020 | Ayodhya

Designed and edited high-impact visual content (videos, posters, and digital graphics) for COVID-19 awareness, prevention, and vaccination campaigns under the Uttar Pradesh Government. Produced government-approved visuals distributed across social media, public platforms, and official communication channels to reach millions.

Collaborated with public health officials and communication teams to ensure accurate, timely, and culturally sensitive messaging.

Played a key creative role in shaping visual narratives that supported government efforts to inform, educate, and engage the public during the crisis. Delivered urgent edits and creative assets under strict timelines, often responding to daily updates and critical government briefs.

Contributed to one of the largest public awareness drives in India, helping increase vaccine awareness and COVID protocol compliance across the state

Designed and ran a content series titled "How AI Makes Mistakes", using real AI-generated content to highlight AI limitations

Operated across 5+ business experiments involving AI, dropshipping, social media, and content testing — independently and strategically

Developed AI-powered business models across sectors like print-on-demand, influencer marketing, SaaS auctions, and automated content creation

Built advanced prompting systems to maximize the output and creativity of AI tools

PROJECTS

AI Driven Social Media Accounts

Automation over - Instagram

03/2025 – 05/2025

Engineered and managed AI-driven social media accounts that leveraged automation workflows to achieve **50K+ views within 48 hours**, showcasing the ability to design scalable digital growth systems and optimize audience engagement through AI-powered content delivery.

AI Based 3D Characters

12/2023 – 03/2024

Developed AI-based 3D character designs for **Games Workshop**, applying generative AI modeling to create miniature toy prototypes that streamlined design workflows, reduced manual effort, and accelerated time-to-market for collectible figurines.
